

Discover new possibilities.

The National Association of Counties has partnered with Multi-Bank Securities, Inc. (MBS), endorsing eConnectDirect® as an essential tool for members to manage their fixed-income investment needs. This tool gives county treasurers and finance officers visibility to thousands of fixed-income offerings in a market with little transparency. It arms local government investors with the necessary tools and confidence to select and transact within the fixed-income marketplace. While eConnectDirect® allows investors to be self-sufficient, the service also allows them to work with a licensed MBS account executive in a dynamic, collaborative way by working side-by-side on investment strategies and decisions.

eConnectDirect® is transforming the way local governments invest, allowing treasurers to:

- Save time
- View current market pricing
- Have greater control of their investment portfolio
- Be even better stewards of taxpayers' money

#### Why eConnectDirect®?

- No subscription fees
- Nothing to download
- FDIC CD insurance scrub
- Portfolio management tools and reports

eConnectDirect® offers access to trillions of dollars of fixed-income investments:

- U.S. agencies
- Corporate bonds
- Municipal bonds
- Certificates of deposit
- Treasuries
- New issue and secondary bonds

For more information, visit [www.eConnectDirect.com](http://www.eConnectDirect.com) or call (800) 967-9052.
