

Mr. Randall
Pender CO, Manager 13-14 yrs (NC Zur)

Samantina John
8/11/16
4H
PC-Manager

I have learned a great deal of things from our Pender County manager.

So before you become a County Manager, you have to make sure you go to college for atleast four years and get a masters degree, either public speaking or buisness classes. When you are County manager you are responsible for multiple things such as monitoring and administrating the County budget, providing the board with the information they need to make decisions, and representing the County in intergovernmental relationships... etc.

In the future there is going to be a lot more building. The County manager is seeing to it that we have enough of everything we need for the county. Going to try and operate and provide quality services efficiently without hurting people, like property taxes... etc.

The County manager is very important. This is because he controls what happens with the money and can do a lot of things. Also he helps provide us clean

water.

Money is not just spent in Hampstead, but all over Pender County. The County manager wants to provide "more services."

4H could be more involved with the community by helping "Community Service, and by treating others with kindness. We do a lot of different activities in 4H and we should continue to do it because then it gives people (children, teens) a group to join that is fun and helpful. Also in 4H we will learn a lot about the government so says the "Pender County" Manager.

They increased their fund to Pender County Schools by 2.5 million dollars. They are continueing to build new schools and are hoping that kids keep coming.

Thank you for allowing me to be able to have this opportunity to talk to our Pender County manager. It was lots of fun and I have learned a lot.

SAMANTHA
