- Continuity and consistency of messaging critical

## STANDARD OPERATING PROCEDURE

|  |                                  |              |
|--|----------------------------------|--------------|
| Name: <b>Abbreviated Pandemic Risk Assessment and Continuity of Operations and Services Tool</b> |                                  |              |
| Revision: 03-16-2020   | Rutherford County Government, NC | Page: 1 of 7 |

### PURPOSE:

Rutherford County Government operations provides emergency/public safety and other mandated services that must be performed, or rapidly and efficiently resumed, in an emergency. This document establishes policy and guidance and assists all departments with the ability to determine risk assessment across service lines to ensure the execution of the essential functions for Rutherford County Government operations in the event that an emergency in our service areas threatens or incapacitates operations.

### SCOPE:

The plan is applicable to all Rutherford County Government departments and personnel.

### POLICY:

It is the policy of Rutherford County Government to respond quickly and offer mandated services at all levels in the event of an emergency or threat, to include human, natural, and other emergencies or threats, in order to continue essential internal operations and to provide support to our citizens, emergency management and response agencies, our community partner agencies and service providers that may be affected by the emergency.

The objectives of this plan are as follows:

- Maintain command, control and direction during emergencies;
- Reduce disruptions to operations;
- Protect essential facilities, equipment, records, and other assets;
- Assess and minimize damage and losses;
- Provide organizational and operational stability;
- Facilitate decision-making during an emergency;
- Achieve an orderly recovery from emergency operations;
- Assist affected employees and their families;
- Provide for the line of succession to critical management and technical positions;
- Provide resources and capabilities to develop plans for restoring or reconstituting regular activities, depending upon the scope, severity, and nature of the incident; and,
- Fulfill the agency's responsibilities in local, regional and state emergency operations plans and agreements with local emergency response and management and community partner agencies.

Utilization of a layered effect: Infection Control, Work plan Protection, Community Mitigation, and Essential Tasks create multiple layers of protective measures against exposure to lower respiratory viruses for employees and citizens we interact with.

## STANDARD OPERATING PROCEDURE

|  |                                  |              |
|--|----------------------------------|--------------|
| Name: <b>Abbreviated Pandemic Risk Assessment and Continuity of Operations and Services Tool</b> |                                  |              |
| Revision: 03-16-2020   | Rutherford County Government, NC | Page: 2 of 7 |

### Infection Control:

- Frequent handwashing and hand sanitizer use
- Cover your cough into your elbow
- Practice social distancing

### Workplace and Staff Protection:

- Encourage sick employees to stay at home.
- Cancel all non-essential/required work related out-of-county, out-of-state and international travel.
- Sanitize and disinfect all facilities and work spaces twice a day.
- Keep work surfaces and equipment disinfected. Pay special attention to common surfaces such as phones, door handles, copiers/printers, steering wheels, electronic equipment (with approved electronic device cleaner), etc.
- Use technology for updates and information exchange instead of in-person meetings. Conference calls will be utilized when possible for admin and staff meetings.
- Limit non-business-related office visits from family and friends. Obtain Supervisor approval for necessary visits.
- Wear personal protective equipment where indicated for specific specialized jobs (e.g., EMS, Transit, Sheriff's Office, etc.).
- Clean equipment and uniforms on high temperatures if soiled with potentially infectious materials or you or your staff have been in close proximity to others who may be exhibiting signs of a fever, heavy coughing or other signs of infection.
- Ensure that all county vehicles are equipped with hand sanitizer and wipes.
- Early recognition of employees that are ill is important to protecting your entire staff. Contact the Human Resources Director if the Health Department or other local health provider is requesting that an employee self-quarantine/isolate or if greater than 10% of your agency workforce is unable to come to work due to being symptomatic or they are self-quarantined.

### Community Mitigation:

- Isolation, treatment, voluntary home quarantine of those with confirmed or potential lower respiratory illness (fever with a cough or other signs of illness)
- Voluntary closure of non-essential business functions / consider telework when appropriate. Special consideration: High risk populations such as those who are older than 65 or have cardiac/respiratory issues, diabetes, and/or a compromised immune system.

## STANDARD OPERATING PROCEDURE

Name: **Abbreviated Pandemic Risk Assessment and Continuity of Operations and Services Tool**

Revision: 03-16-2020 Rutherford County Government, NC

Page: 3 of 7

### Essential Operational Tasks and Functions:

#### Essential Personnel:

All County Government personnel are classified as essential personnel during a State of Emergency especially our emergency services/public safety staff and staff who operate within a department that provides mandated services and must maintain public access.

#### Risk Assessment and Continuity Planning for Essential Services:

| Department/Office  | Director/Appointed or Elected Official Name   |
|--|---|
|  |   |
| Task   | Comments/Action   |
| Define your customer base (who do you primarily serve and who accesses your services?) that your staff are exposed to daily. | <input type="checkbox"/> 0-5<br><input type="checkbox"/> 6-18<br><input type="checkbox"/> 19-30<br><input type="checkbox"/> 31-50<br><input type="checkbox"/> 51-65<br><input type="checkbox"/> Over 65<br><input type="checkbox"/> All age groups<br>Comments: |
| Define the core function of your department/office and the primary services offered.   |   |
| Define the average number of people who may visit your office on any given business day.                                     |   |
| Number of personnel (please attach a copy of your organization chart and staff emergency contact list).                      | <ul style="list-style-type: none"> <li>Full-Time: </li> <li>Part-Time: </li> <li>Reserve/On-Call/Back-up: </li> <li>Inmate Labor: </li> </ul>   |
| List the number of staff that you have that work out in the field and their primary function.                                |   |
| List the number of staff you have cross-trained for other functions.   | <ul style="list-style-type: none"> <li># of staff cross-trained: </li> <li>Functions staff are cross-trained for: </li> <li>Gaps in functions where staff are not cross-trained: </li> </ul>  |

# Community Incident Response Team

- Formation of Community Incident Response Team

- Objectives:

- COVID-19 Updates – Health Department and Emergency Management/EOC
- Perform risk assessments – Identify and close gaps in services
- Identify resource needs
- Share best practices
- Public communications

- Team Members:

- Health Director
- EM Director
- Federal, State, and Local Elected Officials
- Towns, County Departments and COG
- Community, health and human services reps
- Public safety and emergency services reps
- Education systems
- Justice system
- Philanthropic, non-profits and faith based
- Business & tourism sectors
- Public utility service providers

# Enhancing COVID-19 Communications

- Social Media communications
- Public news media communications
- Mobile alert notifications
- Comprehensive Dashboard
