Opioid Litigation Settlement
Opioid Epidemic: Human Toll

- More than \textbf{16,000} North Carolinian lives lost
- COVID-19 pandemic caused a \textbf{new wave} of isolation, despair, drug misuse and overdose deaths
Opioid Epidemic: 
Role of Local Governments

- Counties are on the **frontlines**
- Local governments have spent untold amounts of money on **opioid-related costs** for healthcare, criminal justice and social services
Opioid Litigation

- State of NC, 76 counties and 8 municipalities filed lawsuits in federal court to hold accountable several companies involved in manufacturing, marketing, promoting, and distributing prescription opioid drugs.

- These federal cases along with thousands of others across the country were consolidated into Multi-District Litigation (MDL).

- State and local governments hopeful a National Settlement Agreement will be forthcoming.
Preparation for National Settlement Agreement

- NC DOJ and NCACC collaborated to define settlement fund allocation model.
- Goal is to maximize NC’s share of settlement funds to ensure resources reach communities as quickly effectively, and directly as possible.
NCACC convenes National Counsels, Local Counsels, County Attorneys, NC DOJ – Informational Meeting

Bobby Outten, Dare County Manager
Next Steps

• Discuss MOA in detail

• Follow-up email to come Friday

• Confer with municipal counterparts

• Be in touch with questions – communications@ncacc.org
Memorandum of Agreement
MOA: Allocation Model

Opioid settlement funds received in NC will be allocated as follows:

- 80% will go to Local Governments listed in the MOA
- 15% will go to the State of North Carolina
- 5% will be used for County Incentive Fund
MOA:
Allocation Details

• **15% to State:** General Assembly would have authority to appropriate on a wide range of strategies to address the epidemic

• **80% to Local Governments:** Will go to all 100 counties and 17 municipalities, allocated according to a formula developed by attorneys representing local governments in national litigation

• **5% to County Incentive Fund:** Will go to any county and any municipality in that county receiving settlement funds, in which the county and every municipality with at least 30,000 residents in the county signs the NC MOA
National settlement and Purdue Pharma bankruptcy could provide up to $850 million to NC for opioid remediation.

- To be allocated over the course of 18 years, with funds being front-loaded.

- Funds allocated proportionally based on where the opioid crisis is most severe, and is based on number of pills dispensed, number of opioid overdose deaths and number of people suffering from opioid use disorder.
MOA offers local governments two options:

- Option A: a local government may fund one or more strategies from a shorter list of evidence-based, high-impact strategies to address the epidemic

- Option B: a local government may fund one or more strategies from a longer list of strategies after engaging in a collaborative strategic planning process involving a diverse array of stakeholders at the local level
MOA:

Coordination Group

- Five Local Government Representatives
- Four Experts Appointed by DHHS
- One Expert Appointed by Attorney General
- Two Experts Appointed by Legislative Leaders
• Annual financial and impact reporting and audit requirements

• Statewide opioid settlement dashboard
MOA: Importance of Signing

• National settlement agreement expected to provide **highest benefits** to state and local governments that have **100% participation** in signing state agreements.

• All North Carolinians and all communities stand to gain by local governments signing MOA and demonstrating solidarity in response to opioid epidemic.
